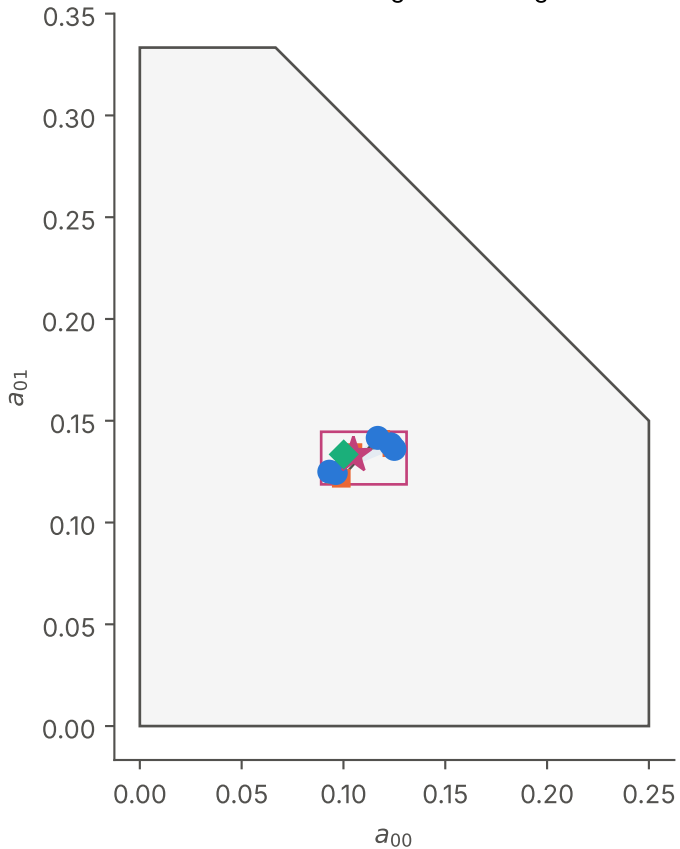
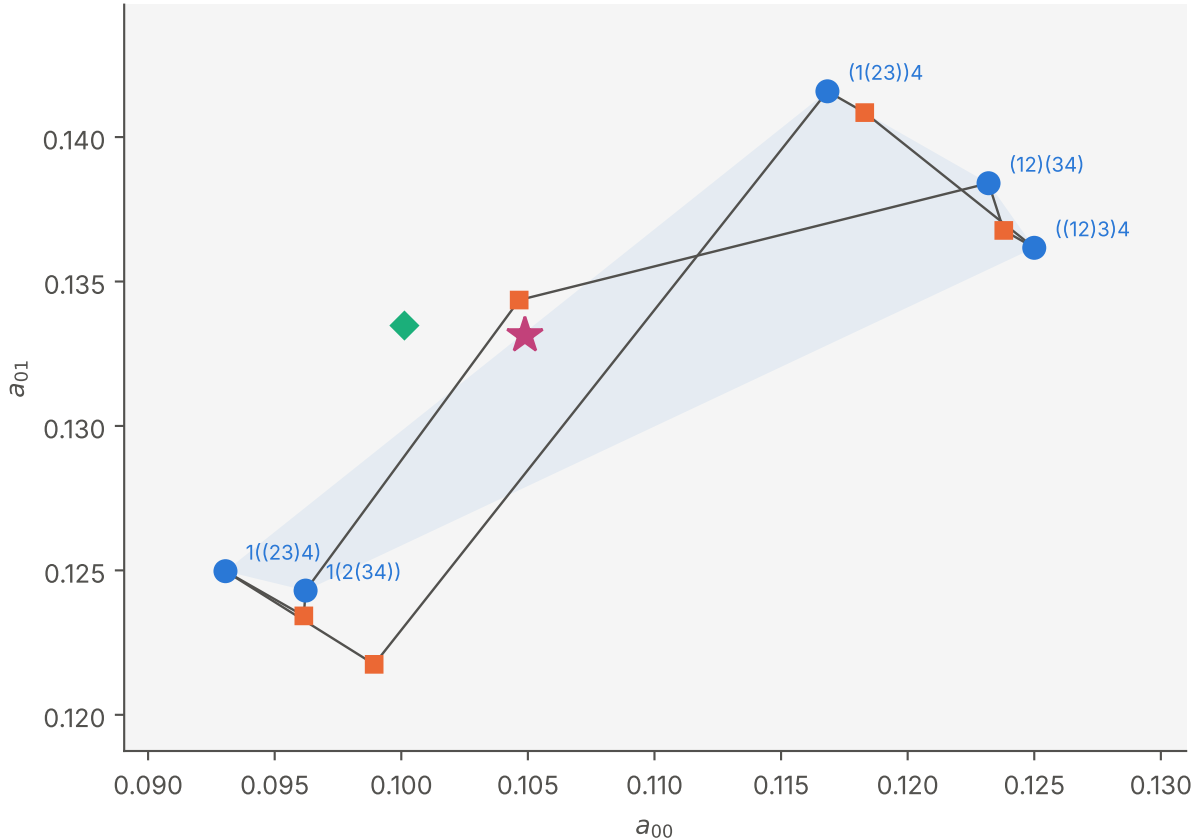
(a) the endpoint polytope $\Pi(p_0, p_4)$, $p_0 = (2/5, 3/5)$, $p_4 = (1/4, 1/3, 5/12)$; the box is enlarged on the right





(b) zoom: K_4 mapped in: bracketings (blue), edge composites (orange) on the broken edges; the image folds (the edges cross); the top (star) lies inside the hull, Markov (aqua) outside
