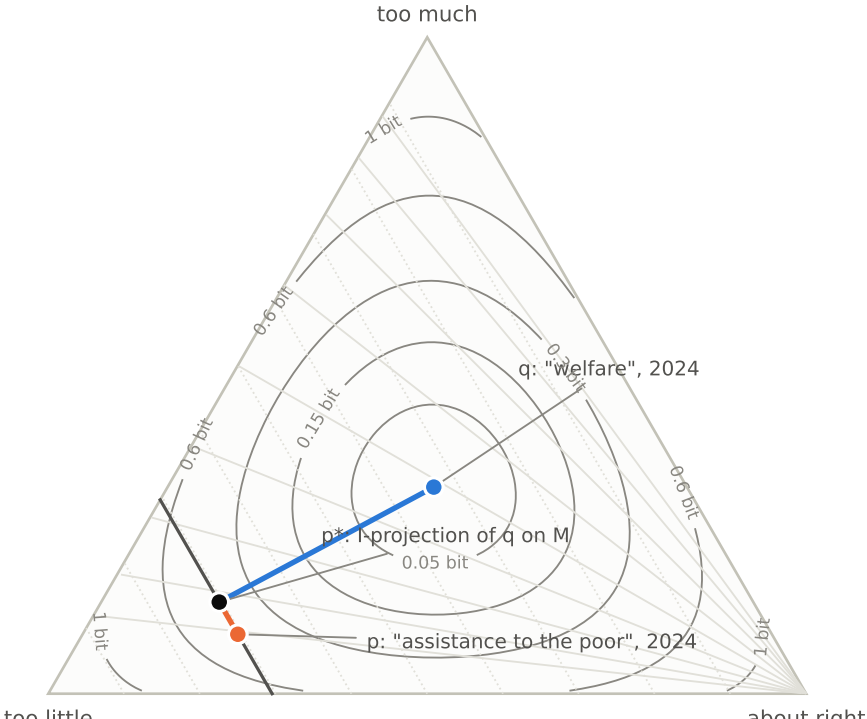
Dual affine (Fisher–Bregman) geometry of the welfare answer, GSS 2024



Pythagoras: KL(p‖q) = 0.437 = KL(p‖p*) 0.024 + KL(p*‖q) 0.413 bits

dark line M = {r : r(too little) = p(too little)}, m-flat; blue: e-geodesic q→p*; orange: m-geodesic p→p*;
contours: KL(·‖q); faint curves: e-coordinate lines; dotted: m-coordinate lines
